

## **RETRACTION NOTICE**

***Retraction notice to “Metabolic Studies of Malus domestica Leaves Infected and Non-infected with Venturia inaequalis” Int.J.Curr.Microbiol.App.Sci. 9(3): 514-525.***

This article has been retracted: please see Excellent Publishers Terms and conditions on Article Withdrawal

This article has been retracted at the request of the Editor.

One of the conditions of submission of a paper for publication is that authors declare explicitly that their work is original and there is no conflict for publication in IJCMAS. The scientific community takes a very strong view on this matter and apologies are offered to readers of the publication.
